

Sales Data Analysis

Ride booking & customer behavior insights from **1,00,000 ride records** —
powered by PostgreSQL, Python & Power BI

RAPIDO RIDE ANALYTICS

Dataset at a Glance

100K

Total Records

20

Columns

7

Vehicle Types

50

Locations

Key Feature Groups

- Booking details: Date, Time, Status, Customer ID
- Ride info: Vehicle Type, Distance, Booking Value
- Performance: V_TAT, C_TAT, Incomplete Rides
- Cancellations, Payments, Ratings

⚠ Missing values in TAT, Ratings & Cancellation columns due to incomplete bookings

Python: Data Preparation

Data Loading

Imported with pandas & numpy

Exploration

df.info() & .describe() for structure & stats

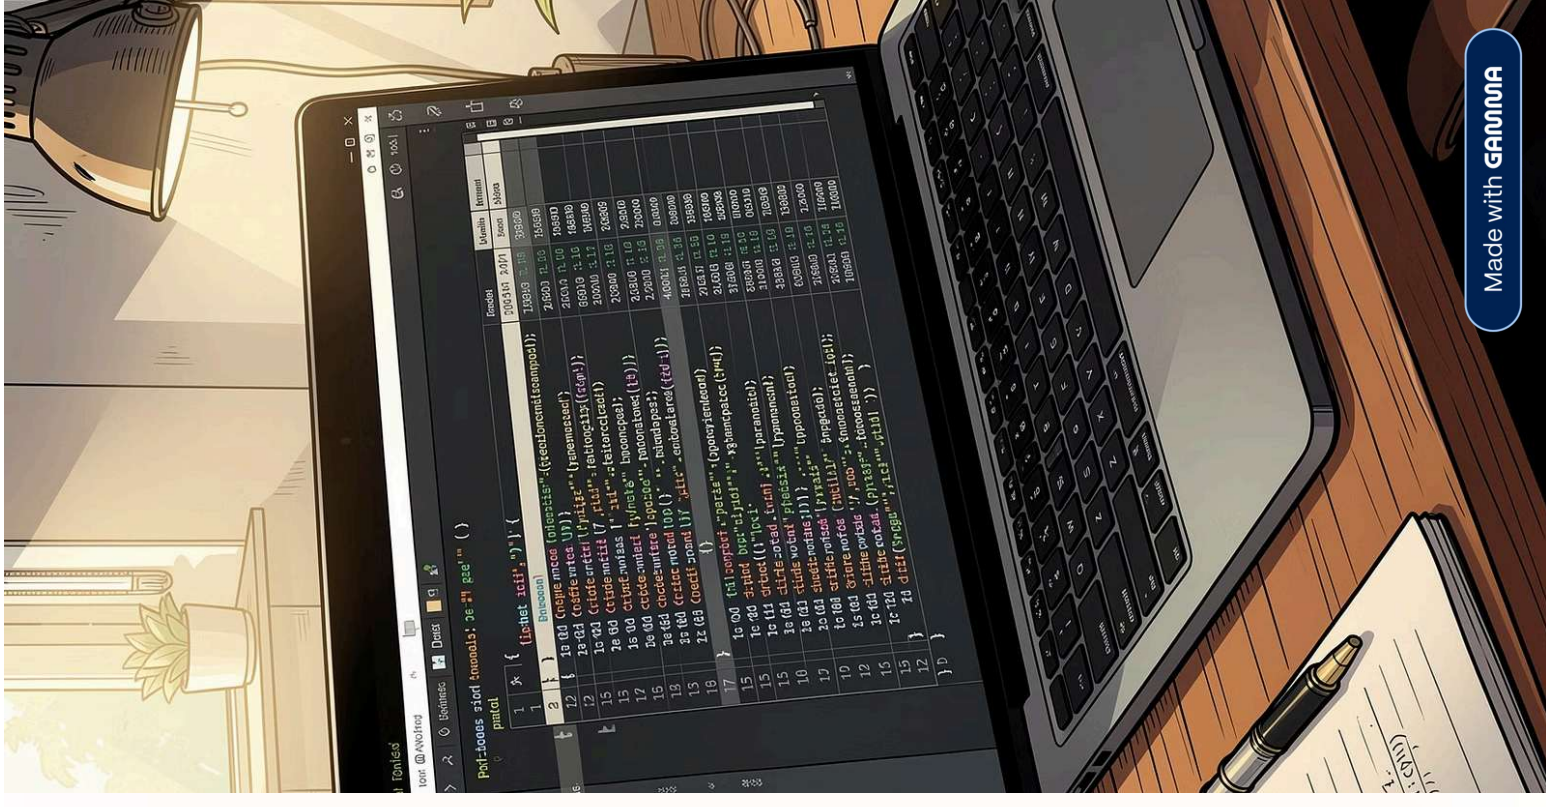

Missing Data

Imputed V_IAT, C_IAT, Ratings using median per category

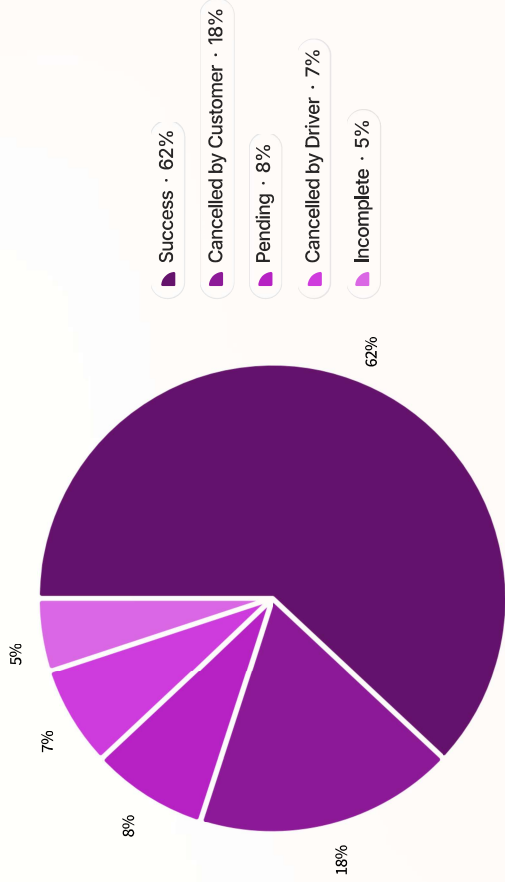

DB Integration

Cleaned data loaded into PostgreSQL for SQL analysis

Booking Status Breakdown

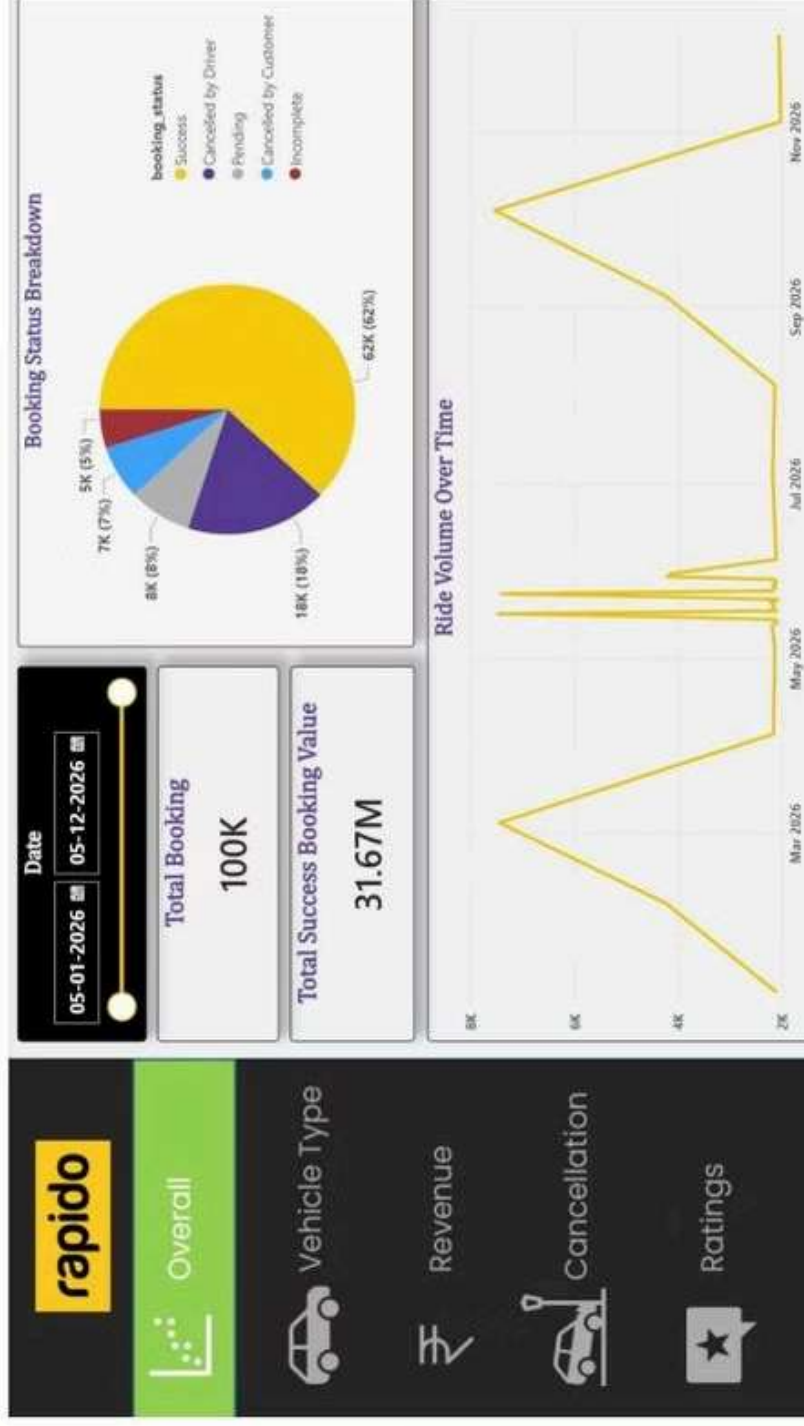

Overall Performance

Peaks in **March** (~7.5K rides) and **October 2026** (~7.5K rides); sharp drop in May.

Power BI Dashboard

Overall

Booking status, ride volume over time, KPIs

Vehicle Type

Booking & success values, distance by category

Revenue

Payment methods, top customers, distance trends

Cancellation

25% cancellation rate, reasons by customer & driver

Ratings

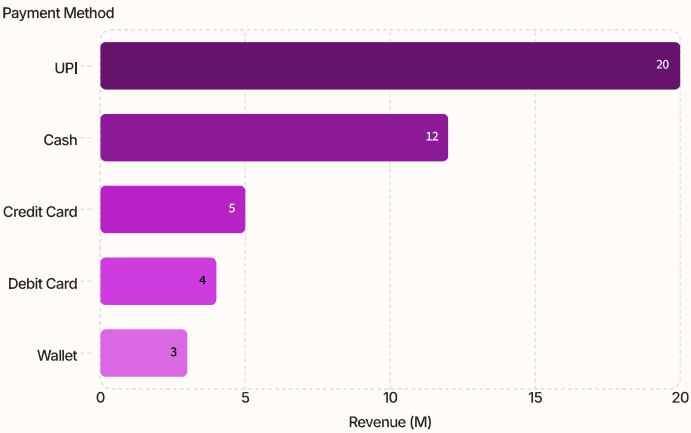

Driver & customer ratings across all vehicle types

Vehicle Type Performance

Vehicle Type	Total Booking	Success Value	Avg. Distance	Total Distance
Prime Sedan	6.90M	4.51M	18.41 km	164.14K
Prime SUV	6.80M	4.46M	18.30 km	158.78K
E-Bike	6.99M	4.65M	18.19 km	164.97K
Bike	6.87M	4.59M	18.17 km	163.88K
Auto	6.82M	4.48M	18.39 km	161.10K
Mini	6.79M	4.49M	18.14 km	158.86K

Revenue Analysis

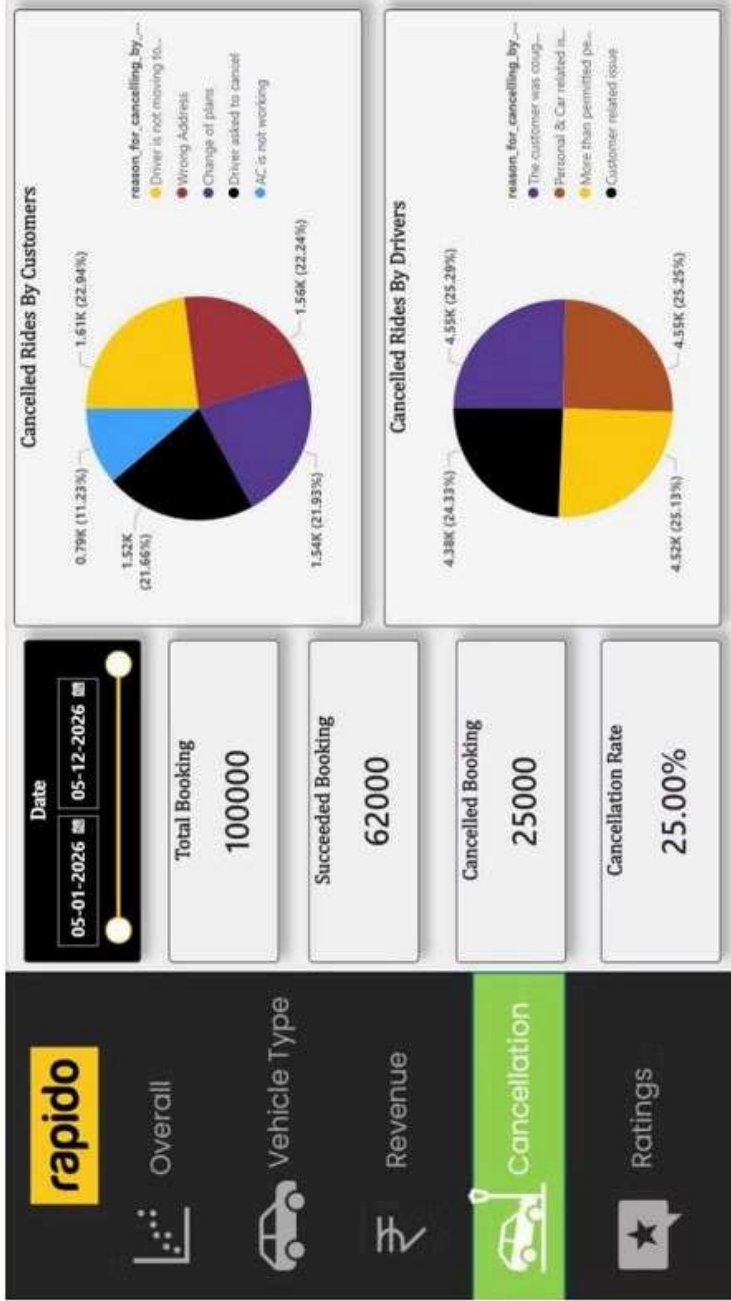

Top 5 Customers

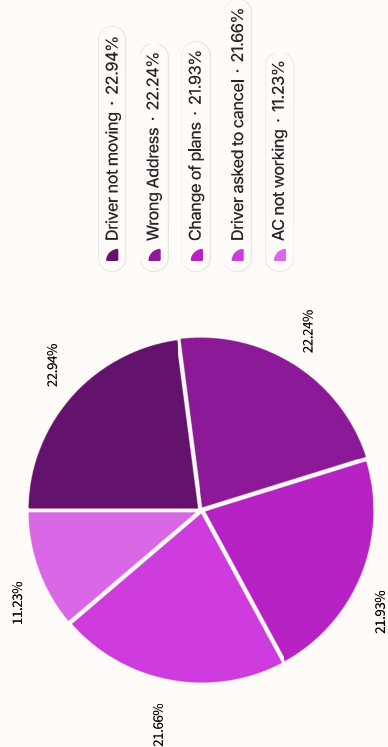

Customer ID	Booking Value
CUST70759	6,000.59
CUST71242	5,198.76
CUST21632	5,026.10
CUST63948	4,973.60
CUST42661	4,965.26

✔ **UPI dominates** at 20M — over 45% of total revenue

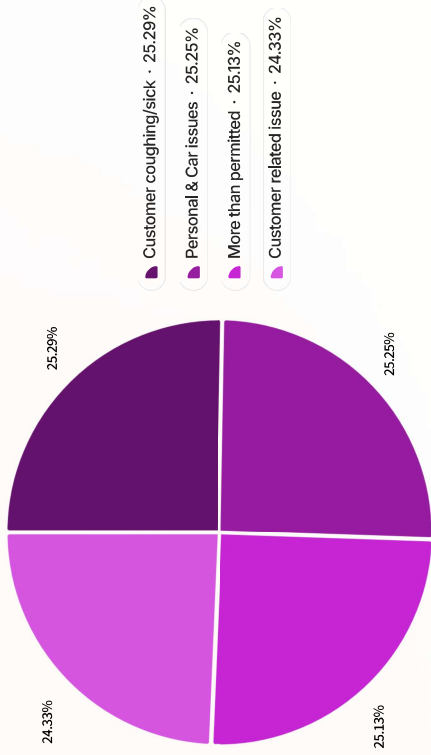

Cancellation Deep Dive

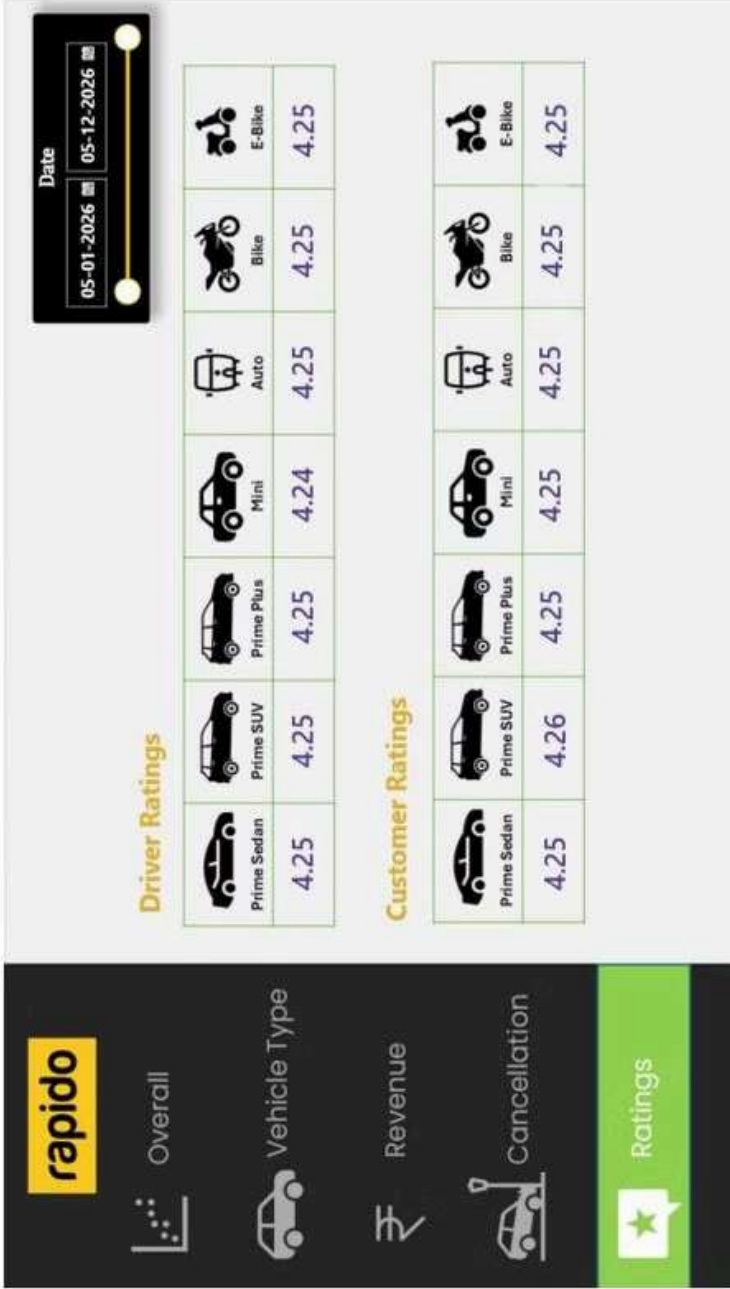

Cancelled by Customers (7,000)

Cancelled by Drivers (4,545)

Ratings Overview

Business Recommendations

Reduce Cancellations

Better driver allocation, stricter policies, real-time tracking

Improve Satisfaction

Monitor low-rated rides; launch driver training programs

Target High-Demand Zones

Deploy more drivers in top Bengaluru booking locations

Surge Pricing

Apply dynamic pricing on weekends & match days

Operational Reliability

Regular vehicle maintenance to reduce incomplete rides
